nate Judge. The ingratitude of Bacon to Essex, is one of the gravest of the many charges which have been brought against him. These ty is in a state of active preparation for their forthcoming Concert. The Concert charges Mr. Dixon answers not so much by itself will be one of the most attractive ever endeavoring to prove their falsity as by abusing Essex. To obtain place for his friend, the Earl declares that he "stood Lost,-Supposed upon the the old river against all the world;" that he "spent all ed, a small pearl and jet cluster scarf pinhis power, might, authority and amity, but The finder will please leave the same at the it was given to another." Published even superior in interest to his lectures on Temperance, his wonderful dramatic talent finding a fruitful field in the highways and by the author.

The railway convention recently held at Washington, of the five eastern and western trunk lines has adjourned, to meet in New York on the 20th of February.

A schedule of rates for freight between all sastern and western points was adopted. This catores the figures of the St. Nicholas ho tel and Saratoga meetings, with a slight variation in regard to passengers.

The fact was developed in the course of the deliberations that the freight from the South and Southwest, with the exception of cotton, had greatly decreased, while the movements of produce from the Northwest and central west North of the Ohio river, was unusually large. All the roads report increased receipts over those of January, 1860, some of them very heavy, and, as an instance, it was mentioned that the Baltimore and Ohio road, the most southern of the five great lines, and the increase of which is less than the others, shows an enlargement in revenue on eastward freight o twenty-five thousand dollars for the first twenty-two days of the present month over

the similar period last year. A general falling off was reported in pasthird week in January, 1861, \$32,128,87
